## Assembly, layout and finishing

- To build the final composition, use a slightly smaller cube mold (approx. 5×5×5 cm) to prepare a layered insert.
- Assemble the insert in the following order:
  - Pear compote 15g
  - Mascarpone namelaka 10g
  - Cocoa financier
- Repeat this layering once more to build a structured, balanced insert. Freeze completely until solid.
- Once frozen, unmold the insert and place it into the center of a larger 6×6×6 cm cube mold.
- Pour a portion of the mascarpone namelaka into the bottom of the large mold, position the frozen insert, and fill with the remaining namelaka until flush with the top. Freeze again until fully set.
- Unmold and finish with red velvet spray or red mirror glaze, and complete the look with Dobla chocolate decorations (christmas teddy bear)
